Visual Studio Code

1. Stáhnutí

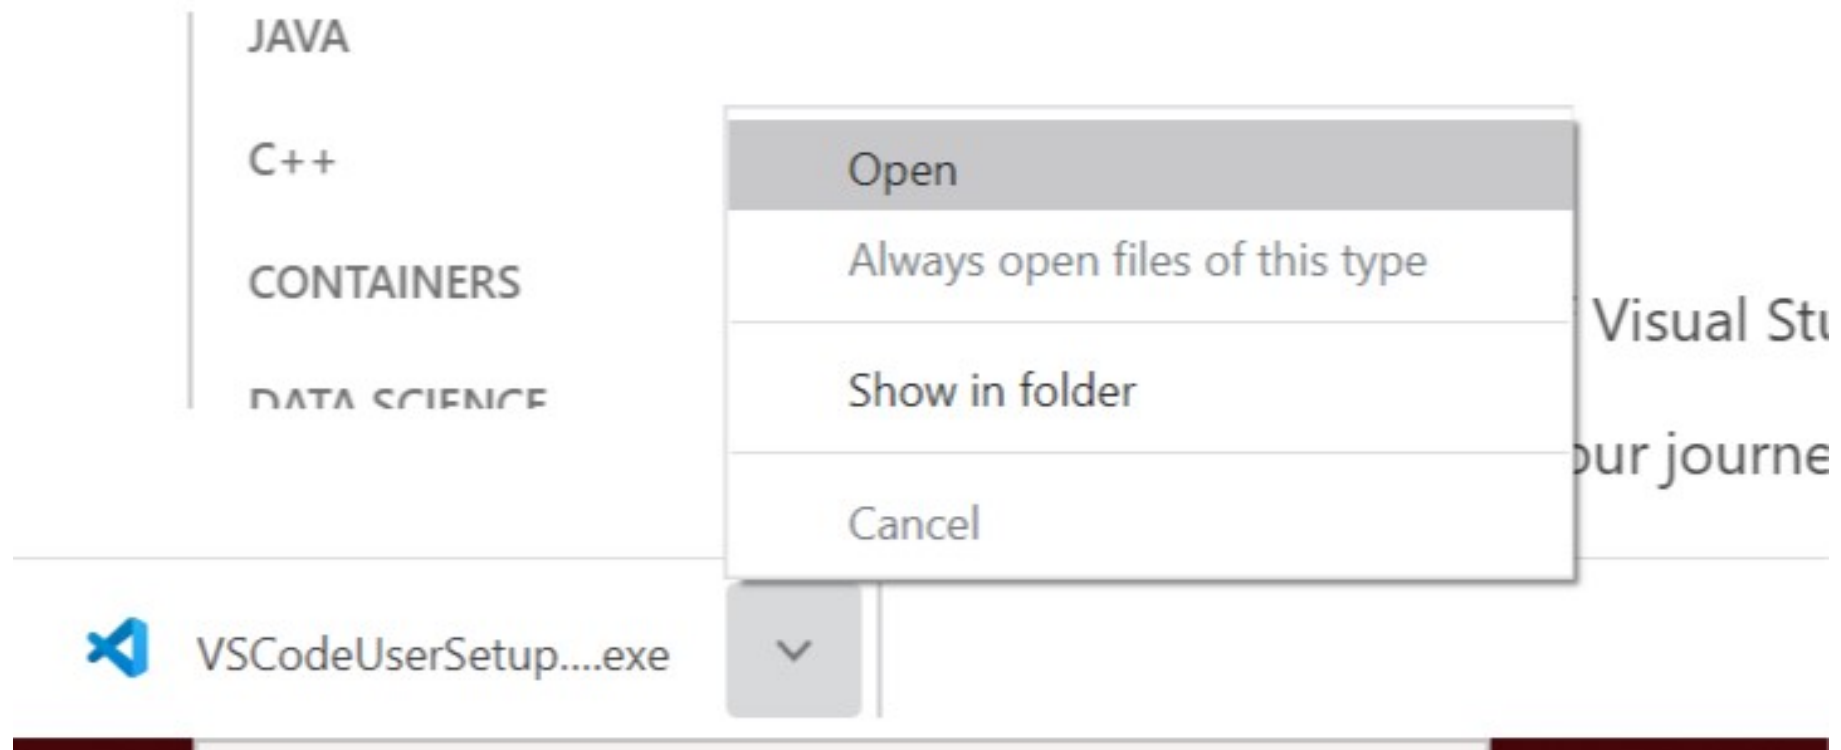

<https://code.visualstudio.com>

The screenshot shows the Visual Studio Code website at <https://code.visualstudio.com>. The website features a dark theme with the text "Code editing. Redefined." and "Free. Built on open source. Runs everywhere." Below this is a blue button labeled "Download for Windows" with "Stable Build" underneath. To the right, there is a "Download" button. A banner above the main content states "Version 1.61 is now available! Read about the new features and fixes from September." Below the main text, there is a link to "Other platforms and Insiders Edition" and a note: "By using VS Code, you agree to its license and privacy statement."

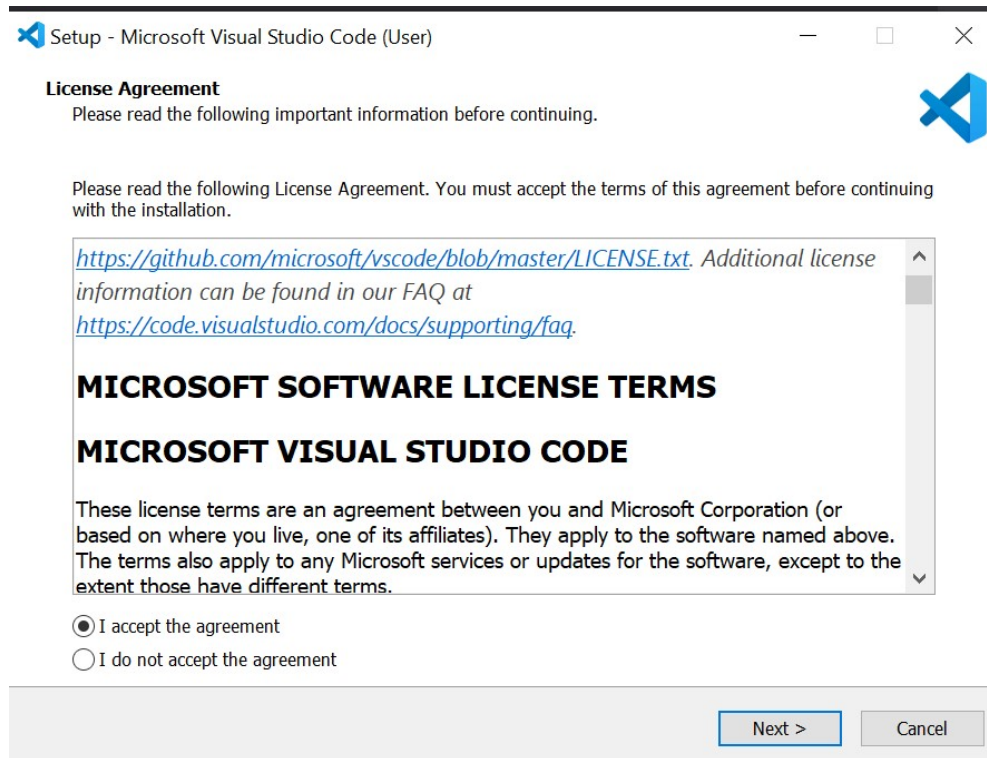

Overlaid on the bottom right of the website is a preview of the Visual Studio Code IDE interface. The interface shows the "EXTENSIONS: MARKETPLACE" sidebar on the left with a list of extensions including Python, GitLens, C/C++, ESLint, Debugger for Chrome, Language Support for Java, and VS Code Icons. The main editor area displays a JavaScript file named "serviceWorker.js" with code for registering a service worker. The code includes comments and function calls like `registerValidServiceWorker` and `registerValidSW`. The bottom of the IDE shows a terminal window with the command `1: node`.
